

SUMMER 2018/2019

FOLIAGE IN FOCUS Magnolia Grandiflora Exmouth

The iconic Magnolia Grandiflora Exmouth is easily identifiable for its glossy green leaves with brown undersides.

It is particularly spectacular in summer, when it is adorned with large creamy white flowers that are truly iconic. The flowers are beautifully fragrant and are worth the year-long wait they command.

When mature, Magnolia Grandiflora Exmouth grows to approximately 10m high and 3-5m wide. It has a conical structure that is incredibly striking when repeated as a street tree.

Kensington residents will be able to see the Magnolia Grandiflora Exmouth in all its glory along Wilhelm Parade and Gibbs Crescent.

While the Catherine Park Estate gardening team is committed to keeping Catherine Park Estate beautiful, residents are kindly asked to look after their street trees to ensure that the entire community continues to shine.

Meet Lynn and Sandra

How did you first hear about Catherine Park Estate?

Sandra: We'd been looking at other areas and just happened to be driving past and saw there was available land. We drove up to the beautiful big house on the hill and thought 'Wow, this is lovely', and we were happy to put a deposit down on a block.

What made you want to move to Catherine Park Estate?

Lynn: It ticked all the boxes, right through from the sales side of things to the sales lady herself, it was just a fit that we loved. It felt like home.

Why is Catherine Park Estate different from other estates?

Sandra: I love the trees, and the fact that it has rules. The developer wants us to keep it sort of uniform and that makes it of a really high standard. That was important, and I find you don't get that in other estates.

How would you describe the estate in three words to a friend?

Sandra: To describe the estate in three words to a friend, I'd probably say quality, community

Lynn: and home.

Sandra: And home!

How much has Catherine Park Estate changed since you moved in?

Lynn: The estate itself has changed like tenfold since we moved in April. Lots of trees in the streets, there's a park around the corner for the children, the dog park is nearly complete, and our street is full of houses. It's on its way to being even greater than it already is.

How did you find the sales process?

Lynn: The sales process was flawless, 100 out of 10. They were exceptional, the process was so easy, made by the fact that we clicked with the sales lady. She's an absolute legend. I think that's why we decided to stay here. It was all because of her really.

What are your hopes for the future of Catherine Park Estate?

Sandra: This is our forever home, we won't just be here for five years we will be here forever. We've made a lot of great memories here, and we intend to make some more.

Sandra: Lynn and I are getting married in February, and we've actually decided to get married here at home because it's a very special place to us.
